Contents Volume 4 (1989)

Research Papers

Removing volatile contaminants from the unsaturated zone by inducing advective air-phase transport
A.L. Baehr (Trenton, NJ, U.S.A.), G.E. Hoag and M.C. Marley (Storrs, CT, U.S.A.) . . 1

The in-situ adsorption of ^{90}Sr in a sand aquifer at the Chalk River Nuclear Laboratories R.E. Jackson (Burlington, Ont., Canada) and K.J. Inch (Chalk River, Ont., Canada) 27

Impact of nitrogen fertilizers on groundwater quality – some examples from Czechoslovakia
V. Pěkný, J. Skořepa and J. Vrba (Prague, Czechoslovakia) 51

Batch studies for the investigation of the mobility of the heavy metals Cd, Cr, Cu and Zn
M. Fic and M. Isenbeck-Schröter (Kiel, F.R. Germany) 69

A comparison of travel time and concentration approaches to modeling transport by groundwater
G. Dagan (TEl Aviv, Israel) and V. Nguyen (Minneapolis, MN, U.S.A.). 79

Vertical transport processes in unconfined aquifers
D.W. Ostendorf, D.A. Reckhow and D.J. Popielarczyk (Amherst, MA, U.S.A.). 93

Announcement. 109

Research Papers

Analytical inverse modelling of regional-scale tritium waste migration
A.E. Fryar (Edmonton, Alta., Canada) and P.A. Domenico (College Station, TX, U.S.A.) 113

Experimental studies of mass transport in porous media with local heterogeneities
M. Herr, G. Schäfer and K. Spitz (Stuttgart, F.R. Germany) 127

Uncertainty in a pesticide leaching assessment for Hawaii
K.M. Loague, R.S. Yost, R.E. Green and T.C. Liang (Honolulu, HI, U.S.A.). 139

Sorption of volatile organic solvents from aqueous solution onto subsurface solids
M.D. Piwoni (Savoy, IL, U.S.A.) and P. Banerjee (Chicago, IL, U.S.A.) 163

Sorption kinetics of low-molecular-weight hydrophobic organic compounds on surface-modified silica
J.E. Szecsody and R.C. Bales (Tucson, AZ, U.S.A.) 181

Announcement. 204

Research Papers

Analysis of nonequilibrium desorption of volatile organics during field test of aquifer decontamination
J.M. Bahr (Madison, WI, U.S.A.). 205

Flow interruption: a method for investigating sorption nonequilibrium
M.L. Brusseau, P.S.C. Rao, R.E. Jessup and J.M. Davidson (Gainesville, FL, U.S.A.) 223

Diffusion of inorganic chemical species in compacted clay soil
C.D. Shackelford (Fort Collins, CO, U.S.A.), D.E. Daniel and H.M. Liljestrand (Austin, TX, U.S.A.). 241

Enumeration of anaerobic and oligotrophic bacteria in subsoils and sediments
P. van Beelen and A.K. Fleuren-Kemilä (Bilthoven, The Netherlands) 275

Evaluation of groundwater vulnerability to pesticides: a comparison between the pesticide DRASTIC index and the PRZM leaching quantities
O. Banton and J.-P. Villeneuve (Ste-Foy, Qué., Canada) 285

Announcement. 297

Research Papers

Microbial adaptation to degradation of hydrocarbons in polluted and unpolluted groundwater
J. Aamand (Copenhagen, Denmark), C. Jørgensen, E. Arvin and B.K. Jensen (Lyngby, Denmark) 299

The movement of phosphate in a catchment with a shallow ephemeral water table
R.G. Gerritse (Wembley, W.A., Australia) and N.J. Schofield (Leederville, W.A., Australia) 313

Soil pollution by petroleum products, I. Multiphase migration of kerosene components in soil columns
A.J. Acher, P. Boderie and B. Yaron (Bet-Dagan, Israel). 333

Soil pollution by petroleum products, II. Adsorption-desorption of "kerosene" vapors on soils
B. Yaron, P. Sutherland, T. Galin and A.J. Acher (Bet-Dagan, Israel) 347

Field research studies on the movement and degradation of thiodicarb and its metabolite methomyl
R.L. Jones, T.W. Hunt, F.A. Norris and C.F. Harden (Research Triangle Park, NC, U.S.A.). 359

Experimental determination of three-fluid saturation profiles in porous media
L.A. Ferrand, P.C.D. Milly and G.F. Pinder (Princeton, NJ, U.S.A.) 373
